German Technology + Canadian Manufacturing
in Richmond, British Columbia, Canada.

BRAZEN
SURFACTANT

Company Introduction

We combine the precision of German technology with the reliability of Canadian manufacturing to deliver high-performance custom chemical solutions to clients across the Asia-Pacific region.

Based in Richmond, BC—one of North America’s key Pacific gateways, we are strategically positioned to provide efficient, dependable supply to international markets.

Our Mission

Our mission is to deliver custom-engineered chemical solutions and manufacturing tailored to each client’s specific needs, ensuring performance, efficiency, and consistency.

Shipping and Logistics

We are licensed to ship internationally to Asia/Pacific region and will support you for reliable global delivery. In addition, our private labeling services help our partners expand and grow their brand.

Our Capabilities

We provide customized chemical formulations designed to meet specific industrial and regulatory requirements:

Strategic Value:

- Integration of German technology and Canadian manufacturing
- High-quality, consistent chemical solutions
- Reliable supply chain for long-term cooperation
- Experience in international partnerships
- Strong commitment to trust, transparency, and mutual growth.

Technical Capabilities:

- Industrial cleaning and precision degreasing
- Automotive detailing products and solutions
- Custom formulations and specialty chemicals
- Private label and product development

Partnership Model

We aim to build long-term, strategic partnerships with distributors, manufacturers, and government-linked enterprises.

Our collaboration process:

- Customized formulation development
- Performance validation and quality assurance
- Scalable production and secure supply
- Ongoing technical support and optimization

We are committed to:

- Ensuring consistent product quality across all batches
- Providing reliable and timely international supply
- Supporting local standards and technical requirements
- Establishing transparent and responsive communication channels

Integrated Strengths

German Technology Platform:

- Advanced R&D and formulation expertise
- Proven European technologies and methodologies
- High standards for precision, consistency, and performance.

Canadian Manufacturing System:

- Stable and scalable production capacity
- Strict quality assurance and compliance systems
- Reliable export capability to Asia-Pacific markets

Quality & Sustainability

We are committed to delivering solutions that meet international quality standards while supporting environmentally responsible practices, helping our partners align with evolving regulatory and sustainability expectations.

Why Choose Us?

- Trusted combination of German technology and Canadian manufacturing
- Consistent, high-quality products
- Custom solutions tailored to your processes
- Reliable supply for long-term cooperation
- Strong focus on partnership and trust
